Test Results Report

Template 1 : **TC-Answer-MemberQuestion-v1_2026_10_15**

Test 1 · Prompt Quality

Criterion	Evidence / Notes	Score
Role	Clearly defines the assistant as a polite member support agent at the Learner Support Desk.	1
Action	Instructs the model to answer using only the Library Facts and handle multiple parts separately.	1
Context	Includes the approved Library Facts in the CONTEXT section.	1
Expectation	Defines language, tone, maximum 60 words, and required response format.	1
Input and rules	Uses [INPUT_TEXT] and includes clear rules such as no assumptions, no sensitive data, and no live refund-status claims.	1
Total		**5 / 5**

Test 2 · Template Quality

Criterion	Evidence / Notes	Score
Name and purpose	Clear template name, purpose, and “Use when” section are provided.	1
Variables	Includes 5 variables with types, allowed values, defaults, and missing-value handling.	1
Fixed safety rules	Includes rules to use only CONTEXT, avoid promises, and never request sensitive	1

	information.	
Tested	Tested with normal questions, an edge case, and an out-of-scope question	1
Safe examples	Examples use invented, non-sensitive questions and approved facts only.	1
Owner and version	Owner, version, and date are clearly specified.	1
Total		**6 / 6**

Test 3 · Output Quality

Criterion	Evidence / Notes	Score
Facts supported and current	Answers matched the approved Library Facts; the weather question was correctly rejected as not available in the facts.	1
Numbers, dates and names exact	The outputs correctly used **3 working days**, **10 working days**, and **80% attendance**	1
No promises or actions	The template did not claim that a refund was processed or provide an unsupported delivery date.	1
No sensitive data repeated	The output did not repeat or request ID numbers, passwords, or bank details.	1
Complete and natural	Responses included a greeting, direct answer, next step when needed, and closing in a natural way.	1
Total		**5 / 5**

- Keep the answer short and polite.

Language: English
Tone: Polite
Maximum: 60 words
Format: Greeting · Direct Answer · Next Step only when needed · Closing
INPUT:
Can you tell me the live status of my refund?

عرض أقل

Refund Status Reply

Hello,

The Learner Support Desk cannot see the live status of a refund.

Please contact the Finance Office through the official channel for refund status updates.

Thank you.

Template 2: TC-Summarize-Message-v1_2026_10_15

Test 1 · Prompt Quality

Criterion	Evidence / Notes	Score
Role	Clearly defines the model as a Support Desk Assistant at the Learner Support Desk.	1
Action	Clearly instructs the model to summarize the learner's message in three parts.	1
Context	Clearly states that the learner's message is the only source of information.	1
Expectation	Specifies the language, maximum word count, and required output format.	1
Input and rules	Includes clear input variables and rules to prevent assumptions, invented information, and unnecessary handling of sensitive data.	1
Total		**5 / 5**

Test 2 · Template Quality

Criterion	Evidence / Notes	Score
Name and purpose	The template name and purpose clearly describe the summarization task.	1
Variables	Includes MESSAGE, LANGUAGE, MAX_WORDS, and FOCUS with defaults and missing-value handling.	1
Fixed safety rules	Prevents inventing information, answering requests, and unnecessarily repeating sensitive data.	1
Tested	The template was tested, an issue was identified, the rules were improved, and the same test was repeated successfully.	1
Safe examples	Includes normal examples and	1

	an unclear-message edge case.	
Owner and version	Owner, version, and date are clearly included.	1
Total		**6 / 6**

Test 3 · Output Quality

Criterion	Evidence / Notes	Score
Facts supported and current	The outputs summarized information provided in the learner's messages without adding external facts.	1
Numbers, dates and names exact	Important details such as course names, time references, and requests were preserved correctly.	1
No promises or actions	After improvement, the output described the learner's requests without performing them or providing unrelated information.	1
No sensitive data repeated	The outputs consistently followed Main Request, Key Details, and Needed Action.	1
Complete and natural	The outputs were clear, natural, concise, and within the specified word limit.	1
Total		**5 / 5**

[MAX_WORDS]: 60
[FOCUS]: Registration issue

INPUT:

I registered for the Python course last week, but I need to cancel my registration because I have a schedule conflict. I also want to know whether I can get a refund. Please summarize my request for the support team.

عرض أقل

Main Request: Cancel the Python course registration and ask about a refund.

Key Details: Registered last week; has a schedule conflict; also wants to know if a refund is available.

Needed Action: Check the cancellation and refund options.

Template 3: TC-Classify-Request-v1_2026_10_15

Test 1 · Prompt Quality

Criterion	Evidence / Notes	Score
Role	Clearly defines the model as a request classification assistant at the Learner Support Desk.	1
Action	Clearly instructs the model to assign exactly one category based on the learner's main request.	1
Context	Clearly defines the five approved categories and what each category covers.	1
Expectation	Specifies the category-only output format and prevents unnecessary explanations.	1
Input and rules	Includes the request variable and clear rules for classification, multiple topics, unclear requests, and approved category names.	1
Total		**5 / 5**

Test 2 · Template Quality

Criterion	Evidence / Notes	Score
Name and purpose	The template name and purpose clearly describe the request classification task.	1
Variables	Includes REQUEST, LANGUAGE, and FOCUS with allowed values and missing-value handling.	1
Fixed safety rules	Prevents answering or solving requests, adding information, and creating new category names.	1
Tested	Tested with all five categories and a multiple-topic request;	1

	all classifications were correct.	
Safe examples	Includes examples for the main categories and an Other edge case.	1
Owner and version	Owner, version, and date are clearly included.	1
Total		**6 / 6**

Test 3 · Output Quality

Criterion	Evidence / Notes	Score
Facts supported and current	Each output was based only on the learner's request and the approved category definitions.	1
Numbers, dates and names exact	The classification did not alter or invent details from the learner's request.	1
No promises or actions	The outputs only provided the category and did not answer or solve the learner's request.	1
No sensitive data repeated	The outputs contained only the required category name and did not repeat learner information.	1
Complete and natural	All six test outputs were clear, concise, and used exactly one approved category.	1
Total		**5 / 5**

Template 4: TC-Translate-CourseNotice-v1_2026_10_15

Test 1 · Prompt Quality

Criterion	Evidence / Notes	Score
Role	Clearly defines the assistant as a translation assistant at the Learner Support Desk.	1
Action	Clearly instructs the model to translate Arabic ↔ English and preserve the original information.	1
Context	States that the approved course notice is the only source of information.	1
Expectation	Defines language, direction, word limit, and translated-notice-only format.	1
Input and rules	Uses [NOTICE] and includes clear rules against changing dates, numbers, names, or facts.	1
Total		**5 / 5**

Test 2 · Template Quality

Criterion	Evidence / Notes	Score
Name and purpose	Clear template name and translation purpose.	1
Variables	Includes NOTICE, LANGUAGE, DIRECTION, and MAX_WORDS with defaults.	1
Fixed safety rules	Prevents adding, removing, changing, or inventing information.	1
Tested	Successfully tested with Arabic → English course notices containing dates, times, names, numbers, and other details.	1
Safe examples	Includes two normal examples and one edge example.	1

Owner and version	Owner, version, and date are clearly included.	1
Total		**6 / 6**

Test 3 · Output Quality

Criterion	Evidence / Notes	Score
Facts supported and current	Each translation used only the information provided in the approved course notice.	1
Numbers, dates and names exact	Dates, times, course names, trainer names, durations, days, and course numbers were preserved correctly.	1
No promises or actions	The output only translated the notice without adding commitments or actions.	1
No sensitive data repeated	No unnecessary sensitive information was added or repeated.	1
Complete and natural	The translations were clear, complete, natural, and within the required word limit.	1
Total		**5 / 5**

* V1 · 2026_10_15 · Initial version created for the Learner Support Desk scenario.
TEST INPUT

[LANGUAGE]: Arabic
[DIRECTION]: English to Arabic
[MAX_WORDS]: 120

INPUT:

The Python course starts on 5 December 2026 at 10:00 AM. Registration closes on 1 December 2026.

عرض أقل

تبدأ دورة Python في 5 ديسمبر 2026 الساعة 10:00 صباحًا. يُغلق التسجيل في 1 ديسمبر 2026.

Template 5: TC-CourseStartReminder-v1_2026_10_15

Test 1 · Prompt Quality

Criterion	Evidence / Notes	Score
Role	Clearly defines the assistant as a learner support assistant at the Learner Support Desk.	1
Action	Clearly instructs the assistant to write a short reminder about the course start date, time, and items to bring.	1
Context	Clearly states that the course details and approved items are provided in the input.	1
Expectation	Specifies the language, tone, word limit, and required output format.	1
Input and rules	Provides clear input variables and rules to prevent adding or inventing information.	1
Total		**5 / 5**

Test 2 · Template Quality

Criterion	Evidence / Notes	Score
Name and purpose	The template name and purpose are clear and specific.	1
Variables	Includes clear variables for the course, date, time, items to bring, language, tone, and word limit.	1
Fixed safety rules	Prevents adding or inventing information and preserves the provided course details.	1
Tested	Successfully tested with course name, date, time, and required items, and the output matched the requirements.	1
Safe examples	Includes two normal examples and one edge example.	1
Owner and version	Owner, version, and date are	1

	clearly included.	
Total		**6 / 6**

Test 3 · Output Quality

Criterion	Evidence / Notes	Score
Facts supported and current	The output used only the course information provided in the input.	1
Numbers, dates and names exact	The course name, date, time, and items to bring were preserved correctly.	1
No promises or actions	The output only provided the reminder and did not claim that any action was taken.	1
No sensitive data repeated	No sensitive personal information was included or unnecessarily repeated.	1
Complete and natural	The reminder was clear, polite, natural, complete, and within the word limit.	1
Total		**5 / 5**

Course Start Reminder

Hello,

This is a reminder that the Artificial Intelligence course starts on 20 October 2026 at 10:00 AM.

Please bring your laptop and notebook.

Best regards,
Learner Support Desk
